

March 13, 2009

Greetings from COLEN MD Plastic Surgery Suite,

The snow has almost melted and we can start looking forward to the spring season. Along with warmer weather and blooming buds, we can also start thinking about our own rejuvenation. Here at Colen MD Plastic Surgery Suite we offer a wide variety of non-invasive treatments that can make a big difference in your appearance.

We have a wide range of treatments including non-permanent injectables that help to smooth away those unwanted wrinkles and lines, such as, **Botox, Restylane, Juvaderm** and **Radiesse**. We also offer **micro-dermabrasion** and **chemical peels**, both of which take as little as 15 minutes, but leaves you looking refreshed for months.

Additionally, we offer the two incredibly popular Fraxel laser treatments: **Fraxel re:store** and **Fraxel re:pair**. This technology allows us to rejuvenate the face and neck with similar results as invasive surgical procedures. Skin discoloration and acne scarring can also be significantly improved with Fraxel treatments. We also have **laser treatments** for hair removal and spider veins that will help get you "beach-ready" for the summer season.

For those of you who would like help in your daily skin-care regimen, our nurse practitioner Anita have extensive training in skin care and can work with you to find a regimen that will make your look invigorated and refreshed regardless of your current skin type. New to our array of products is **Latisse**, the eyelash lengthener which gives you dramatically longer and fuller lashes.

For a short time only, we are offering a promotion to celebrate the end of winter. When you call to book your complementary consultation with Anita, just mention this newsletter. If you book a treatment before May 1st, we will give you a **20% discount** on that treatment. In addition, if you need **Restylane, Juvaderm** or any other filler for those fine lines and wrinkles, we will give you the **second syringe for half price** on that day of treatment.

We hope to see many of you again in the coming months and hope you stay warm for the rest of this cold winter.

Sincerely,

Colen MD Plastic Surgery Suite and Staff.
